

## Company Description

ATEB is the association of Corporate Treasurers in Belgium. This is an association of experienced professionals in the field of treasury management. It is not a corporate federation. The main goal of the association is to share experiences, practical cases and workable solutions, amongst its members, in a total confidentiality and secured environment. Our association gathers actually a hundred and eighty members. Although we want to remain a small organisation in which we can openly participate and limit the overhead costs and administration, we always welcome new members who share the same principles as ours and are prepared to contribute to the association for the mutual benefit of all its members. The association started its activities in 1991 and now formally meets approximately every months to discuss identified subjects of common interest.
